Location
Plazza da Scoula, 7500 St. Moritz,
Switzerland

Year
2021

Gross floor area
182 m²

Number of bedrooms
3

Both floors of the Penthouse Piazza were originally planned as office space and were taken over in the shell – without walls and stairs. With great sensitivity, the architects created a beautiful, luxurious retreat in the middle of one of the most beautiful areas of the Swiss Alps. According to their company philosophy of creating emotions, they succeeded in creating a home away from home. The condensation of the surface, the use of precious and tactile-sensual materials in combination with skillful lightening create coziness and warmth. Sensuality and the claim of feeling at home are the core goals of their work. With this extraordinary project, they created an inspiring and enriching living experience for their clients out of nothing.
